

Preparation Checklist for Bed Bug Treatment

- ☐ Strip all beds and launder all linens in HOT water. Declutter and remove all non-essential items from the area. Dispose of quickly as to not spread the problem.
- ☐ Launder all items – the dryer KILLS all stages. Bag all cleaned items in new bags. Do not reuse any bags. Sort your laundry in the infected room. Bag laundry and items based on room, as to not cross-contaminate. Use a full dryer cycle on high heat. Empty all drawers and shelf surfaces. Clean items should go through the dryer.
- ☐ Keep a travel size amount of clothing, as the items must remain in the bags until you receive an ALL CLEAR.
- ☐ Clear floors and shelf surfaces. Items can be placed in Ziplock bags.
- ☐ Properly fitted mattresses and box spring encasements are mandatory. They must be free from any tears or rips to be effective.
- ☐ Livingroom areas must be decluttered. Blankets and pillows need to be put through a dryer cycle as well. Do not leave any items on the floor.
- ☐ Following the service, vacuum carpets and the perimeter of all rooms and then discard the vacuum contents into a sealed garbage bag. Return the furniture to normal positions and use the room as you would normally.
- ☐ Follow up service will occur in 14 to 21 days. The above steps will need to be repeated. DO NOT open the sealed bags or bring new items into the affected area until you have received the ALL CLEAR with the technician.

I have read the above guidelines and consent to service from Wagar's Pest Control.
